

7th December 2021

ESL Fabrications recognises that we have a moral and legal obligation to provide and maintain a safe and healthy working environment for all our employees and any other people who may be affected by our activities.

We maintain a health and safety management system that meets the requirements of ISO 45001: 2018

The scope of our system is:

The fabrication of structural, bridge, stadium and offshore steelwork fabrication and erection.

Our policy is to:

Provide enough resources to make sure that we meet our legal duties with regard to health and safety.

Provide adequate control of the health and safety risks arising from our activities.

Ensure that our employees are competent to carry out their tasks and to give them adequate training.

Prevent accidents and causes of work-related ill health.

Maintain safe and healthy working conditions.

We are committed to continual improvement by setting objectives and targets and reviewing our performance on a periodic basis.

Encourage the co-operation, commitment and communication of all employees in the implementation of our health and safety policy.

Recognise employees have a duty to take reasonable care for the health and safety of themselves and any other person who may be affected by their actions.

Recognise that employees do not need to follow any instructions that they reasonably believe jeopardises their safety or the safety of others.

Review and revise this policy as necessary during the planned management review meeting

Paul E Thompson

Managing Director
